I don't wanna be the girl who laughs the loudest
       Ebm
                      В
Or the girl who never wants to be alone
                                                                 C#

                                                      F#
I don't wanna be that call at 4 o'clock in the morning
             Ebm
                                                               F#

                                       B
'Cos I'm the only one you know in the world that won't be home
                    F#
Ebm
                            C#
A----h the sun is blinding
                     F#

I----
           stayed up again

                   C#
O---h, I am finding
               Ebm
That's not the way I want my story to end
Ebm
I'm safe

Up high
                   C#
F#
Nothing can touch me
                                          C#
                                  F#
But why do I feel this party's over?
Ebm
No pain
В
Inside
                     C#
You're like perfection
                                  C#m
                           F#
How do I feel this good sober?
                                               F#
              Ebm
                              В
I don't wanna be the girl who has to fill the silence
The quiet scares me 'cause it screams the truth
                                                            C#
             Ebm
Please don't tell me that we had that conversation
                                                               C#
                                                         F#
         Ebm
I won't remember, save your breath, 'cos what's the use?
